

Resolution in Support of Students Academic Success During COVID-19

Whereas: This semester is unlike any other academic semester than ever before at University of Wisconsin-Stevens Point.

Whereas: Classes have mainly been held online through either synchronous or asynchronous options.

Whereas: Due to the challenges this semester Student Government Association wanted to highlight the different academic supports that are available for students on campus;

Whereas: The tutoring and learning center still provides online tutoring sessions in a variety of formats;

Whereas: This semester they have also shifted funding to make individual math and science tutoring free for all students;

Whereas: The academic and career advising center offers virtual appointments that help students choose a major or give career guidance for students;

Whereas: The counseling center is another avenue students can use to achieve academic success this semester and mental health care;

Whereas: The counseling center offers students twenty free sessions to students throughout the entire undergraduate career;

Whereas: This semester the counseling center is offering sessions through telehealth services;

Whereas: The counseling center offers other supports such as different resources in the community and on campus you can access as well;

Therefore, be it resolved: The SGA of UWSP asks that more education and awareness is provided for the student body so that students know what resources are offered for them;

Therefore, be it further resolved:The SGA of UWSP request that faculty and staff educate their students on where to go to receive academic, career, and mental health support on campus;
